Gasoline Prices Trending Lower WORLD AVERAGE PRICE \$3.69

World Average Retail Gasoline Price*

*U.S. dollars per gallon. Includes taxes. Regular grade. Country average prices are averaged using volume weighting with respect to gasoline demand. Note: Includes 135 nations.
Source: Energy Détente

Energy Détente Chart

The world average price of gasoline has declined 36¢ per gallon since August 2024 due to disappointing fuel demand, thinner refiner margins, and weakening crude oil prices. World consumers are paying more in gasoline tax than retailers, refiners, and distributors combined achieve in gasoline margin. In this report the role of crude oil and specific national price trends are featured.
